
Thrashing since 1995

Ever since their very beginning in January 1995 the Austrian band DARKFALL have been known for uncompromising and down-to-earth Thrash/Death Metal. Soon after their first releases the group aroused curiosity in the metal scene. With various tours and several hundred played concerts in quite a few countries DARKFALL do not only provide evidence for their experience, but also prove their quality. The new album Road to Redemption (2013) is both a continuation of their legacy and a step towards a new era.
